

Lobo Lover Rally

Because one 3-legged lobo is one too many...

Ban traps in Mexican wolf country.

Friday, August 27, 6-8 pm

Harwood Art Center, 1114 7th Street NW, Albuquerque

Join us for refreshments, cake and the presentation of the first annual lobo lover award to Governor Bill Richardson.

On July 28, Governor Richardson recognized the dangers of trapping and snaring wolves and issued an executive order that prohibits leghold and body-crushing traps within the Mexican wolf recovery area in New Mexico for six months. Now the New Mexico Game Commission will consider whether to permanently spare lobos from a minefield of traps and snares in their last holdouts in the wild.

Tell the New Mexico Game Commission that you love lobos and want the ban on trapping to be permanent.

Call 505.988.9126x 0 or visit wildearthguardians.org for details and directions.
