

THIS WOLF IS A GIRL. HER
NAME IS CRESCENT. I PICKED
CRESCENT BECAUSE SHE HOWLS AT THE
MOON.

Full moon

The moon has an important role in protecting the Earth.

Wolfs love a full moon and we need to protect them on earth.

Genevieve

Genevieve was the name of my twin sister who died two years ago. She entered this contest each year. She was brave, kind, loved all animals including Mexican Gray Wolves, and worried about their lives.

Gerónimo
was a leader
of his pack and
a medicine man.
From the
Apache tribe.

Luke Straube, 2nd Grade

When I visited the Amazon Rainforest in Colombia a month ago, I stood by a great Kapok tree. It is the largest tree of the Amazon and people cut these huge trees to open space for farming. The Kapok tree is in so much danger, and his animal brother, the wolf, is suffering the same danger. I hope the great Kapok tree and the great wolf are protected and saved from extinction.

{SHAMAN}

I met a great Shaman of the Huitoto tribe at the Amazon rainforest and he shook my hand and told me I was the future. I hope that wolves are given the chance to have a future too.

Storm

I chose the name Storm because the gray in the wolf's fur is like a storm and the brown fur is like a mudslide.

God made them and we were made to care for all the animals and trees and planet so we should protect the Mexican Gray Wolves because God put them here for a reason and we are not above God's law.
