

Nyika

I chose this name because it is a beautiful African name that means, the earth or "bush" wilderness, which is perfect for a Mexican Gray Wolf pup as it is my dream for them to grow and be safe in the wild.

I think a wolf
should be named
Packer
because wolves live in a pack

I Would name this wolf Prints because his paws make paw prints in the snow and in my stories the main character is a wolf named prints... I'm looking into being published too! I was already published with my story "a Meow of hunger". I hope to one day hear a wolf named prints... That's why he should be named Prints.

Sakil

I want to name wolf pup Sakil because that's my pet's name she is a dog. Sakil comes from the Mayan word that means white. I would like to see wolves re-introduced in Mexico also. I can only imagine how it could help the environment. And I also would love to see some wolves free in Mexico. I would like that people love wolves because they're important for the environment.

Name: Scout

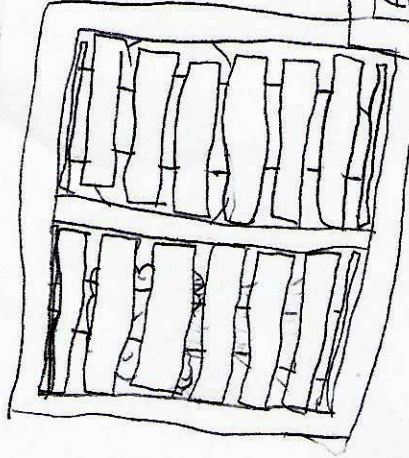

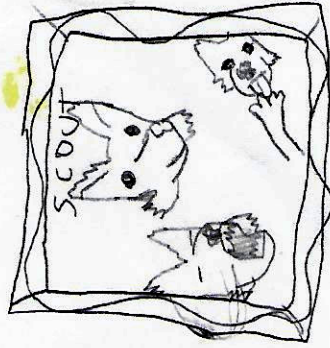

WHY I choose Scout is because
Scout could be a mascot
for Cub Scouts. (Rank: Wolf.)

Girl-Shakarri - African American - One who is a great hunter

- I think Shakarri is a great name because wolves are incredible when it comes to finding food.

Boy-Jaeger - German for Hunter

- I chose Jaeger ~~because~~ in honor of my Oma. She sadly just past away.

I Love Wolves because they are masters of survival and very curious.
