

The reason I would call a wolf pup Skylar
is that it would reach the sky with power and it's
perseverance. Also it could be a girl or boy name.

I chose the name sprinter
because wolves can run really fast. Wolves
usually run faster than their prey. This is why
I chose sprinter.

Summit

Means to be at the very top. Mexican WOLFS need to be at the top of ~~our~~ list to get off of the endangered species list. together we can help them by makeing them a top priority.

Takaya

Takaya

I would love to suggest the name Takaya for the wolf pup. Takaya was a lone wolf that was recently captured here in Victoria, BC, Canada. Takaya was a lone wolf who made his way to Discovery Island in 2012, and recently left the island for Victoria, BC. I love wolves and feel that Takaya is a very special wolf!

Tona

***Sunlight In Summer Days And Playful Pups Pouncing,
Powerful Yips With Powerful Pounces,
But One Sunny Tona With Waving Paws And Big Claws,
He Is Frolicking In Ferns And Sniffing Flowers,
With Sunlight In Summer Days***

Tona

By Harry Williams

Tona

Tona is short for Tonaltzintli(toe-nál-zin-tli), which is in the Aztec Nahuatl language. Tonaltzintli means Sun in Nahuatl and what I think of sun, is a playful wolf leaping to catch meat on a summer day. But I don't want you to have to pronounce the whole name so, I chose the name Tona.

What Sun Means

Sun can mean Light, Warmth, Daylight, Sunshine, Sunlight and also many ancient civilizations worshiped a sun god for protection. Sun always makes me think of a peaceful sunset and a relaxing day.

Why I Chose This Name?

I chose Tona because, One, I imagine peace, Two, I believe that the word sun gives protection, Three, I do not imagine wolves as a threat, but a friend so the name Tona comes to mind because I think sun describes a friend because they're always there for you like the sun is always in the sky.

Conclusion

So I think Tona really fits a wolf's name because if you treat them right, then they will become friends with you and be there for you like the sun is in the sky.
